About This Game

Concurrency is a roguelike with absolutely NO secret to be discovered. Under NO CIRCUMSTANCES are you to investigate any strange occurrences or distortions. These randomly generated halls loop back to the store every time. You follow this track, kill procedurally generated goomen, and purchase upgrades from the shopkeeper. This game has no hidden levels, genres, or bosses. Stay and do your job. If you leave, you will die. Probably many times.

Key Features

- Plenty of upgrades in the shop to keep you docile!
- Your choice of difficulty in the form of branching paths
- Never the same level twice
- An upfront and transparent experience
- A 2 hour long adventure hidden *just* below the surface
- 8 distinct genres to uncover and master
- Dozens of hand-crafted levels to unlock

Title: Concurrency
Genre: Adventure, Indie
Developer:
Andy Imm
Publisher:
Restful Panic Ltd
Release Date: 16 May, 2017

7ad7b8b382

Minimum:

OS: Windows XP, 7, 8 or 10

Processor: 2 GHz

Memory: 4 GB RAM

Graphics: Intel HD 4600

Storage: 150 MB available space

Additional Notes: Intel HD Graphics is pushing it. You might encounter a couple stuttery parts.

English

An odd, confusing romp through different gameplay styles. To the game's credit, the controls are simple and they work, and only one of the styles was a little frustrating to control. It takes about an hour to play through the game and, while interesting, none of the styles go beyond the basic. Basic platforming, basic top down shooter, basic sidescroller - the list goes on. It isn't bad, by any means, it is just kind of boring. If you got a few cents and an hour to kill, it's a short interesting journey with an ear-grating soundtrack.
